 RE: Accounting SB 348, School Safety Transfers

SB 348 passed by the 2013 legislature authorizes school districts to transfer state or local revenue from any budgeted or non-budgeted fund, other than the debt service fund or retirement fund, to the building reserve fund. The amount transferred may not exceed the school district's estimated costs of improvements to school safety, installing or updating locking mechanisms and ingress and egress systems at public school access points, installing or updating bullet-resistant windows and barriers, and installing or updating emergency response systems using contemporary technologies.

- The transfers are not to be applied against the budget authority of the originating fund.
- Any monies transferred but not encumbered or spent by June 30, 2015 must be transferred back to the originating fund.
- If transfers are made from budgeted funds, the district may not increase its nonvoted levy to restore the transferred funds.
- Funds may be transferred during the 2013, 2014, and 2015 fiscal years.
